ID PAPER 112518
Curriculum Development Policy Strategy Through Partnerships To Produce Qualified Alumni at The State University of Makassar
 Andi Cudis Nur¹, Aslinda², Henri Zainal³, Muhammad Gunur⁴
¹Faculty of Social Science, Universitas Negeri Makassar, Makassar, Indonesia; e-mail: n.gunur@unm.ac.id

Abstract—This research aim to understand how the curriculum development policy strategy to produce qualified alumni at the state Makassar State University (UNM) is initiated from formulating the graduate learning outcomes, formulation of courses as well as courses preparation (curriculum framework). This research is a research and development of product, that is development of produce qualified alumni. Data sources of this research is consists of Education Administration Head of Department, curriculum developer lecturer board of AP department and all of Education Administration Department FIP UNM lecturer. Instrument used for gathering data in this research is interview, field notes and documentation. Result of this research shows that the process of curriculum preparation of Education Administration Department that has been done since 2012 has developed according to the curriculum preparation step-by-step regulated in 2016 Higher Education Curriculum Preparation Guide, which is conducted based on CP (Curriculum Preparation) formulation, Courses formation and courses preparation. Formulation of the Education Administration Department study outcomes is already referring to the study outcomes described on CP which has been set in attachment section of SN Dikti according to study program level for general attitude and skill element for Specific Skill and Knowledge formulated by Education Administration Department CP, refer to SKNI Descriptor which has been set out by study program association APMAPI which has been decided in Making 2016 and for skill and knowledge element according to bachelor degree AP department (BA level of SKNI) as well as based on department profile and profile description to bring down the CP of AP department. Courses formation of education administration department is done based on higher education curriculum preparation. But, in the courses formation process, Education Administration Department have not following the Body of Knowledge study material decision that according to curriculum preparation step-by-step based on KNI. The Department have not structuring the student learning experience (equipment) in formation of courses, but each courses have been designed and developed with combining broad-based and Competency-based Curriculum approach. These combination result primarily realized in curriculum substance itself as expertise competences according to work world demands. The curriculum development policy strategy through partnership to produce qualified alumni with Education Administration Head of Department, curriculum developer lecturer board of AP department and all of Education Administration Department FIP UNM lecturer, and stakeholder.

Keywords— evaluation, Curriculum development, policy strategy

Kepada: Andi Cudai Nur, henni zainal, ASLINDA SINA

Dear author and co-author,

We are pleased to inform you that we are now processing the proceeding of AICoBPA 2018. The selected paper will be published in Thompson Reuters Proceeding. Due to the limited number of papers allowed to be published in Thompson Reuters Indexed Proceeding, we have now applied a paper selection processes. The paper selection process will be conducted by considering several things, including originality, substance and administrative completeness. Therefore, for those who intended to publish in Thompson Reuters Indexed Proceeding, please revised your paper according to the review result, fix the originality issue by 20 %, and follow the AP Template as attached. Please noted that the TR Proceeding will cost you 105 USD or 1.500.000 IDR for the publishing process. The publishing cost will be charged after the announcement of selected papers. Papers that failed to be published in Thompson Reuters Indexed Proceeding will be directly published in the ISSN Proceeding if the papers also satisfied all the requirements (fix the originality issue, revised the papers according to the review result). The ISSN Proceeding is free of charge.

All the requirement should be submitted to the committee by January 15.

Further detailed information can be found on our website <http://fia.ub.ac.id/aicobpa/>

Sincerely yours,
AICoBPA Team
